Signature EXTERIOR

Signature Exterior
• Same Quality •
Same Great Formula

Best in Class Quality...

Now with a New Look!

Richard's Signature Series delivers the look and performance your customers want when they ask for the best exterior paint. Testing proves it!

Recent independent lab testing of 85 top quality exterior acrylic paints validated that Richard's Paint delivers quality and performance.

Richard's 100 line Signature Exterior House Paint ranked #2 out of 85 products evaluated, and the margin between our Signature Series Flat and the number one product was a razor-thin half of a rating point. Dozens of major global coatings manufacturers' products were tested. The paint companies in this test included household brand names competing in your market for your customers right now.

We pour everything we have into our Signature Series so you can be proud to sell Richard's Paint; feeling confident your customers are getting the best product and an exceptional value.
